Hi everyone! I have a 2007 Kia Optima EX with a V6 engine. Recently when you open any of the 4 doors the dome light does not go on. If you push the switch to "on" manually, the dome light comes off, push "off" and it goes off but with the switch pressed for "door" the light does not come on for any of the 4 doors.

It's the same problem the 2007 models had which was remedied by replacement of a diode located behind a panel near driver's left foot. My 2011 Sorento has absolutely no working lights inside. Move the switches to any position and nothing. Doors closed or open makes no difference. No vanity lights in visors.
