The AGT Cytogenetics Laboratory Manual: 9781119061229 ...

Cytogenetic slide preparation is essential for both classical banding procedures and in situ protocols, such as fluorescence in situ hybridization (FISH). Slide preparation techniques were described in numerous publications (1-7). Almost every cytogenetic laboratory inherited a procedure, which was then refined to yield good results.

Chromosome (cytogenetic) analysis is widely used for the detection of chromosome instability. When followed by G-banding and molecular techniques such as fluorescence in situ hybridization (FISH), this assay has the powerful ability to analyze individual cells for aberrations that involve gains or losses of portions of the genome and rearrangements involving one or more chromosomes.
