

Blades Of The Old Empire

Community Reviews. Blades of the Old Empire is a really good fantasy novel with a really bad beginning. I was immediately put off by the first chapter or so. The characters were presented rapid fire during a fight scene and while this is typically a good way to start your novel; in this case it was very badly done.

Xal'atath is truly ancient, dating back to the time of the Old Gods' Black Empire. Theories abound as to the nature of its creation, including such outlandish claims that the blade is the remains of a forgotten Old God or even the claw of Y'shaarj itself.
