Hi, we have a older 950 loader and when we turn it to the left it turns fine, but when we turn it to right, it only goes half way, we try adjusting linkage and other things and nothing works, we can get it to turn all the way if we run the valve by hand, we took the steer box arm off and that seems to be working fine, anybody have any suggestion would be great..thanks

Clearing land in Peru has its obstacles, some not easily seen. As Alfredo reports: " I am sending you some photos but for the most part track dozers will be used hitched to pull-type rippers (Wilcox, Deere, Murray), rakes or heavy offset disc harrows. I have a contract to remove all below-ground root systems and stumps(!!)-down to 15 inches- from just-removed trees and shrubs (all above-ground ...
