

Cornell Biological Engineering Requirements

The College of Agriculture and Life Sciences at Cornell is one of the best colleges of its kind in the world. It is a place where world-class faculty and top-notch students come together in an environment that promotes mutual respect, diversity, inquisitiveness, and dedication to applying knowledge with public purpose.

CALS Schools, Departments & Majors - Cornell University

Biological systems engineering or biosystems engineering is a broad-based engineering discipline with particular emphasis on biology and chemistry. It can be thought of as a subset of the broader notion of biological engineering or bio-technology though not in the respects that pertain to biomedical engineering as biosystems engineering tends to focus less on medical applications than on ...

Cornell Tool Helps Maple Tree Owners Evaluate Best Use. Mike Farrell, NYS Maple Specialist, has developed a Net Present Value calculator tool that allows landowners to evaluate the option to lease trees for syrup production vs. managing their trees for saw timber production.

Production | Cornell Small Farms Program

Cornell University was founded on April 27, 1865; the New York State (NYS) Senate authorized the university as the state's land grant institution. Senator Ezra Cornell offered his farm in Ithaca, New York, as a site and \$500,000 of his personal fortune as an initial endowment. Fellow senator and educator Andrew Dickson White agreed to be the first president.
