

Fundamentals Of Materials Science Engineering

Fundamentals of Materials Science and Engineering takes an integrated approach in that one specific structure, characteristic, or property type is covered in turn for all three basic material types: metals, ceramics, and polymeric materials. This presentation permits the early introduction of non-metals and supports the engineer's role in choosing materials based upon their characteristics.

Fundamentals of Materials Science and Engineering, 5th ...

This course focuses on the fundamentals of structure, energetics, and bonding that underpin materials science. It is the introductory lecture class for sophomore students in Materials Science and Engineering, taken with 3.014 and 3.016 to create a unified introduction to the subject.
