The Automatic Genset Controller, AGC, is a flexible control unit containing all necessary functions for protection and control of a genset. It can be used as a single unit for one genset, or a number of AGCs can be connected in a complete power management system for synchronising projects, islanded or paralleled to the mains.

Probably the hottest segment of the handgun market is in guns that fit the concealed carry mode. The guns listed aren't chosen for their level of usefulness for highly trained operators, but rather because they're easy to learn to shoot well and are powerful and reliable enough to serve as excellent defensive tools.
