

Subsea Engineering H

It has been 10 years since the UH Subsea Engineering was envisioned. Built upon the nation's first Subsea Engineering Certificate program and the first graduate program, we now offer Subsea masters, dual Mechanical/Subsea Masters, dual Petroleum/Subsea Masters degrees and two graduate level certificate programs, with complete online and distant learning capabilities.

UH Subsea Engineering

The Nation's First Graduate Subsea Engineering Program The Master of Science in Subsea Engineering at the University of Houston is a non-thesis, 10 course graduate curriculum program. A four-year bachelor's degree in engineering or engineering related field is required in order to apply for the Subsea Engineering program. The curriculum is comprised of three primary categories.

Master of Science in Subsea Engineering | UH Subsea Engineering

A subsea specialization trains offshore engineering professionals to design equipment, tools and infrastructure utilized in offshore petroleum production. Located in 'the Energy Capital of the World', this is the only program in the nation currently providing an academic training program in subsea engineering.

Subsea Engineer Jobs - Apply Now | CareerBuilder

The designs of subsea trees vary in many ways: completion type (simple, diver assist, diverless, or guidelineless), purpose of the tree (production or injection), service conditions (H₂S, CO₂, or H₂S and CO₂), and so on. These parameters will affect the selection of the tree type, materials, and component arrangement. A typical design process for a subsea tree is shown in Figure 24-5.
