

Volvo Engine Timing Tools

The Volvo B21 is a slant straight-four engine first used in the Volvo 200 series, meant to replace the B20. The B21 and all derived engines are often referred to as red block engines for the red paint applied to the block. The primary differences when compared to the B20 was the switch to a SOHC in place of the older pushrod configuration, and an aluminum crossflow cylinder head versus the iron ...

Volvo Redblock Engine - Wikipedia

The Volvo Modular Engine is a family of straight-four, straight-five, and straight-six automobile piston engines that was produced by Volvo Cars in Skövde, Sweden from 1990 until 2016. All engines feature an aluminum engine block and aluminum cylinder head, forged steel connecting rods, aluminum pistons and double overhead camshafts.

Engine Timing Ignition Timing Explained/Timing an Unknown Engine . by: Michael Shiffer. First, you should know that there are two types of timing in an engine: cam timing and ignition timing. (Three types, if you count injector pulse, but injection timing on gasoline-powered busses is tied to ignition timing and is not separately adjustable so I will ignore it, as should you.)
